INTERESTS AND HOBBIES

I'm passionate about psychology and technology, in particular I fell in love with programming and being part of the Tech field is one of my biggest professional goal.

I also love learning languages and since I was inspired by the amazing polyglot Luca Lampariello I definitely strive to be a polyglot in the future like him. I'm self teaching korean at the moment (and loving every moment of it).

In compliance with the GDPR and the Italian Legislative Decree no. 196 dated 30/06/2003, I hereby authorize you to use and process my personal details contained in this document.
